SUBJECT: Monthly Report

SYSTEMS DEVELOPMENT PROJECTS

1. InterLinc eGov

The Union Bank Visa debit card issue was resolved on 06/12/2008, after Visa changed a bad code that they have been sending to PayPal which caused the rejection issue. Chris completed the R&D Alltel network problem, and has confirmed that all other carriers and their related devices are functioning properly. Terry notified Melinda this week and recommended we shift to Sprint EVDO for this application (10 new phones). Chris finalized the work on the Tee Time Reservation System and demonstrated the production version on 07/09/08. Dale from Parks picked Pioneers as the pilot course which will go live in the next two weeks. Terry completed the final design for the Disaster Registry. We are working with Delayne Peck from LAAA and Doug Ahlberg on the registry that will help identify individuals for first responders in a disaster situation.

2. EnterpriseOne (PeopleSoft)

Conversion contracts for version 8.12 have been signed. Conversion planning and activities began on by 06/01/08, and should take about six total weeks with an October target date.

3. On Line Property Protest (County Clerk)

Nick Wemhoff completed and deployed the system on 06/01/08. We have been taking protests successfully for the past month with very positive feedback from Dan Nolte.

OPERATIONAL

The IBM z/890 Enterprise Server prime shift utilization was 54.62% in June compared with 51.69% in May. There were 2,428,643 CICS transactions executed which included 422,528 web transactions. We are planning on moving the z/OS 1.9 operating system release to production either this weekend or the August 2nd weekend.

The City Finance JDE AS/400 prime shift utilization in June was 10.56% compared to 10.26% in May. Disk utilization is 76.7%.

The County PeopleSoft AS/400 prime shift utilization in June was 7.09% compared to 6.54% in May. Disk utilization is 43.91%.

The CJIS Alpha Server prime shift utilization was 68.6% in June compared to 66% in May. The backup server has arrived and is running here on-sight. We are in the process of setting up the system, web, and application software.
